The Board of Directors of AXICL UK consider that both individually and collectively, they have discharged their statutory duties under Section 172 of the Companies Act 2006 by acting in a way they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole (having regard to the Company's relevant stakeholders and matters set out in Section 172 of the Companies Act) in the decisions taken during the year ended 31 December 2022.

When discharging their duties and making decisions, Section 172 of the Companies Act requires the directors to have regard, amongst other things, to the:

- likely consequences of any decision in the long term;
- interests of the company's employees;
- need to foster the company's business relationships with suppliers, customers and others;
- impact of the company's operations on the community and the environment;
- desirability of the company maintaining a reputation for high standards of business conduct;
- need to act fairly between different members of the company.

The Directors comply with Section 172 as part of the Companies Act 2006 and fulfil their duties in various ways including, partly, through a governance framework that delegates day to day decision making to executive and senior management of the Company.

An overview of how the Directors have discharged their statutory duties and engaged with the Company's key stakeholders, is detailed below. The Company's key stakeholders are diverse and include its people, brokers, policy-holders, intermediaries, suppliers, regulators, shareholder and the community within which it operates.

The roadmap and governance is set and monitored by the UK Inclusion & Diversity Board, with regular input from the Inclusion & Diversity Steering Committee. To support the I&D strategy, the following mechanisms are in place:
  - The Diverse Slate policy is implemented for all roles across all levels, including the Board. The Diverse Slate policy strives to achieve gender balance by requiring all hiring managers to have 50% women on their shortlist of interview candidates for all roles globally.

  - All colleagues have an I&D goal (executive goals and link to performance and remuneration)

In alignment with other entities in the AXA XL Division, the Company considers the impact that its operations have on the community and the environment.

- The following initiatives demonstrate the Company's commitment to its local communities:
  - The annual "AXA Week for Good", event brings colleagues across all AXA entities together to support social and environmental causes. In 2022, this included AXA XL's Global Day of Giving, where colleagues are encouraged to donate time and skills in support of non-profit organisations in their communities and around the globe. In 2022, 415 UK colleagues took part in 31 Global Day of Giving projects.
