CyberRiskConnect – product overview

Our cyber and technology policy

In today's world, an organisation's **reliance on technology and the storage and processing of data is critical.**

The more dependent a business is on technology, the greater the risk of a cyber-event. **Managing security** in this rapidly changing environment is one of the main challenges facing companies of all sizes today.

A failure in technology or a **data breach** can have significant consequences, not only to the balance sheet but also to the reputation of a company.

**Expanded
coverage**

**Broader
product terms**

**Tailored solutions
for your industry**

AXA XL is committed to being a trusted partner in helping our customers improve their preparedness for and response to a cyber event. As such, we offer our customers a solution that offers end-to-end services, able to respond to the full spectrum of cyber risks.

Through our UK & Lloyd's CyberRiskConnect product, customers will have access to Cyber Incident Response providers, providing a 24/7/365 response to any cyber incident or claim. Working with our UK & Lloyd's cyber claims handlers, this service guides insured customers through each stage of a cyber incident from initial notification, investigation, and containment, to restoration and closure of the incident.

Our Services:

- **Global hotline – 24/7/365 service** for first notification of loss
- **Dedicated cyber claims team** with extensive experience to assist throughout the lifecycle of the incident
- Access to our UK & Lloyd's **preferred vendor partners** to assist in all aspects of incident response
- **Pre-incident consultation services** offered by our UK & Lloyd's preferred vendor partners to provide increased employee awareness into trending threats and vulnerabilities as well as aid in the preparation of incident response plans
- Access to our UK & Lloyd's **CyberRiskConnect** Portal that hosts a range of educational materials about the latest news on cyber incidents

Key Benefits:

- Clearly signposted and strategically managed cyber claims process throughout the whole incident, working with our UK & Lloyd's cyber claims team, from **First Notification of Loss** to Incident Resolution
- Access to **specialist vendor expertise**, combining cyber resilience insight as well as industry experience to provide relevant, timely information
- **Hotline capabilities** provide fast incident response to support customers in responding to, containing, and resolving incidents in a cost-effective manner
- **Access to our UK & Lloyd's vendor partners**, including legal advice and forensics, for assistance in determining what has been affected and how it can be contained, repaired, or restored

Key Features:

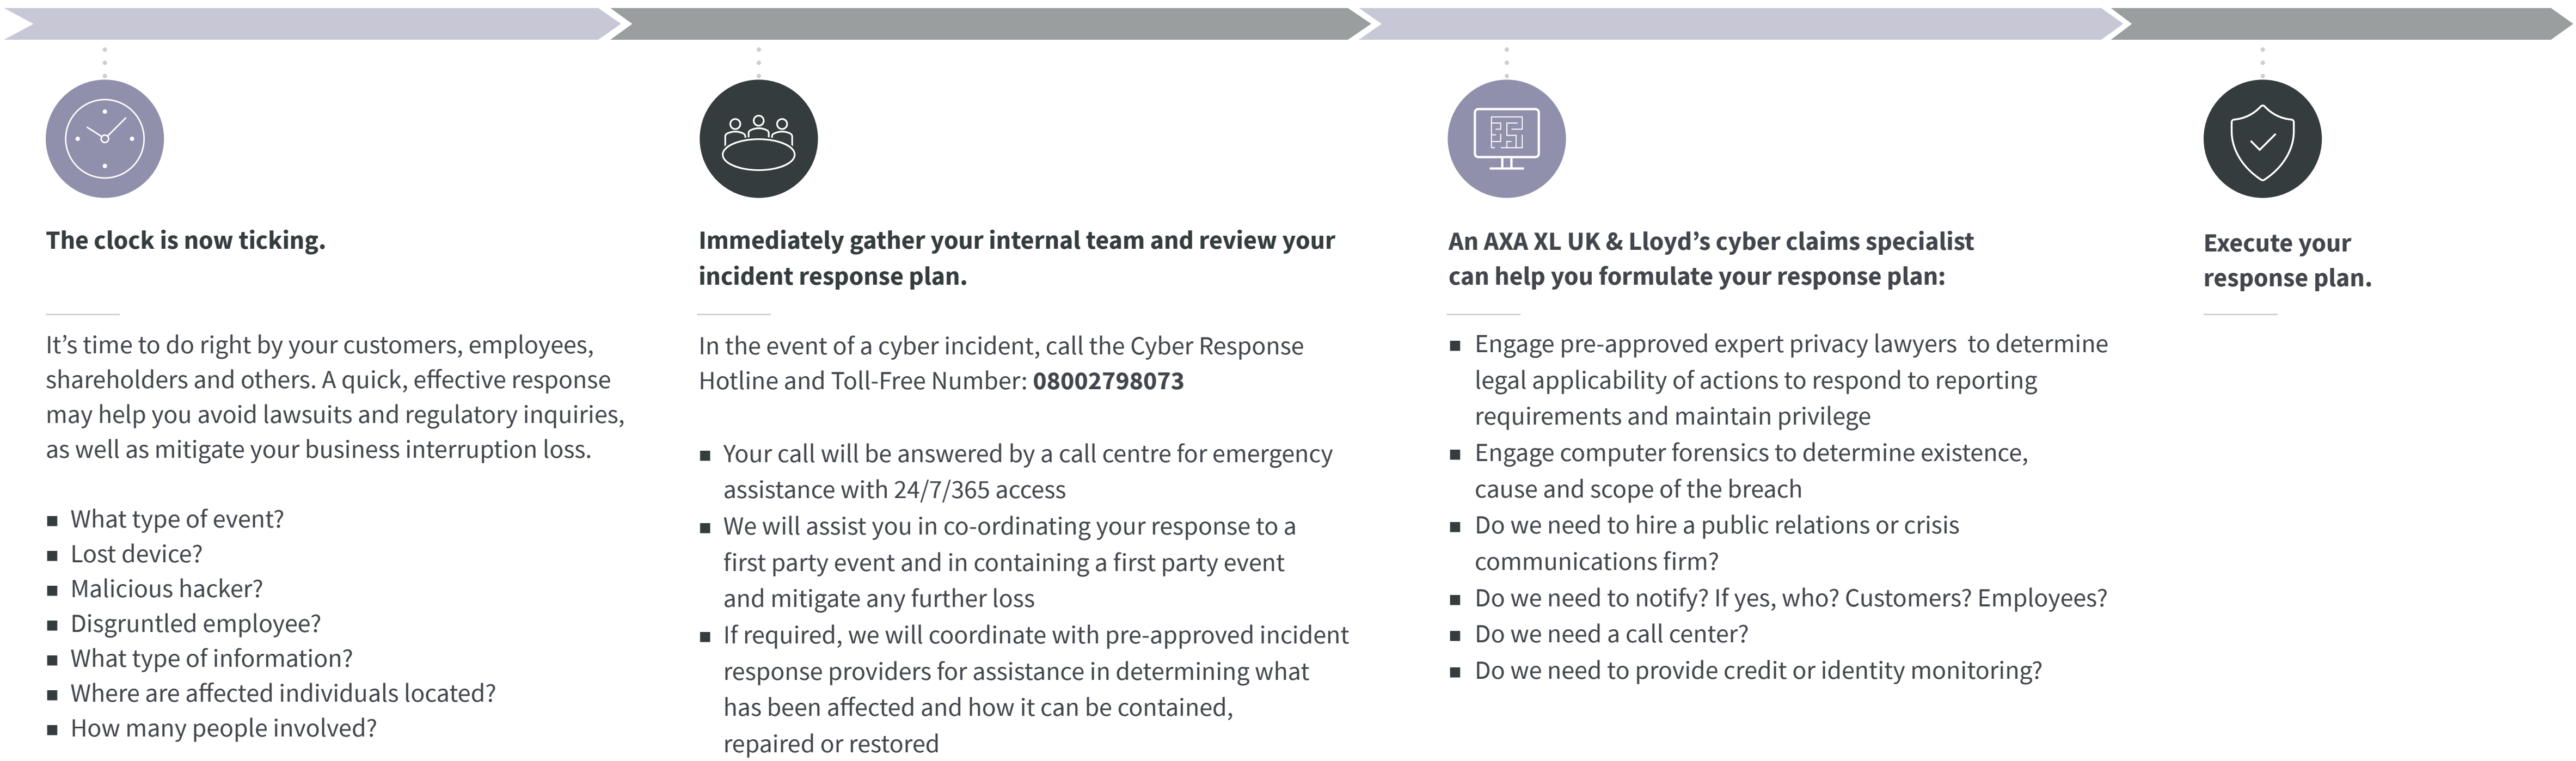

Get prepared, take control, and optimise recovery

- First Notification of Loss (FNOL) services, via 24/7/365 hotline, with experienced claims professionals to assist immediately. This includes identification and allocation of the risk based on severity
- Preparation of an initial cyber incident response plan with the assistance of pre-approved expert privacy lawyers to determine legal applicability of actions and protect privilege as well as the engagement of computer forensics to determine existence, cause and scope of breach
- Access to additional support through engagement with leading partners associated with cyber incident response, including data restoration and remediation, forensic accounting, notification, credit monitoring and identity protection
- A comprehensive “hands-on” approach to incident response from FNOL and investigation, through restoration and resolution

Before a breach:

Your firm has suffered a security incident:

AXA XL UK & Lloyd’s CyberRiskConnect Incident Response:

Our UK & Lloyd’s CyberRiskConnect policy specialises in responding to and assisting in the successful mitigation of loss and disruption caused by cyber events. Our team seeks to provide a measured and strategically managed response, often in a crisis led environment, ensuring that insured customers get the support, expert resources, technology and experience they demand to respond both quickly and effectively to a cyber event.

Incident Response Providers

As part of your UK & Lloyd’s CyberRiskConnect policy, we’ve identified and negotiated preferred rates for breach response services from best-in-class providers that have demonstrated excellence in cyber incident response and data privacy. Our broad network of providers allows flexibility to choose those that best suit your organisation and the event.

The table below shows a panel of vendor partners, including cyber law firms, incident response firms, and restoration experts, who provide a comprehensive incident response service:
