

## AXA XL & AXA Climate

At AXA XL, we're continuing our journey to be your partner of choice by protecting what matters in an increasingly complex world. And as part of the AXA Group, we are one of the few global carriers that can offer a complete range of insurance and reinsurance products to enterprises of every kind and size.

Leveraging our "One AXA" approach with clients, we are delighted to work with you to identify solutions and opportunities to explore partnerships with other AXA entities including AXA Climate.

### AXA Climate

Communities and businesses are increasingly lacking protection against climate risks. Over the next decade, climate will be the catalyst pushing public and private actors to significantly shift their activities in order to make them sustainable.

At AXA Climate, we are reinventing the insurance business to support actors engaged in sustainable transitions. Our purpose is to help Planet Earth become a true stakeholder of all companies, in the same way that employees, customers and shareholders are.

### Who we are

- A committed climate market that supports customers in their ESG engagements and reinvents insurance through sustainable transition, leveraging science and satellite technology by design
- A global team of 100+ underwriters, climate and agriculture experts, data scientists, and engineers
- Leverages the full AXA ecosystem (AXA XL, AXA Investment Managers, and AXA GI's networks) with presence in 60+ countries
- Hubs in Paris, London, Tel Aviv, Singapore, Shanghai and Ivory Coast

### Services

#### Parametric Insurance

- Parametric insurance to provide transparent, predefined and fast financial recovery after weather and climate risks have occurred (e.g. tropical cyclone, earthquake, lack of wind, drought, hail, flood, and more)

#### Industry Adaptation

- Consultancy services to corporates, relying on modeling and vulnerability analysis, to integrate climate physical and transition risks into prevention, adaptation and/or insurance decisions

#### Financial Services Adaptation

- Consultancy services, integration of climate physical and transition risks into acquisition and portfolio management strategy

#### Agri Transition

- Consultancy services to quantify the impact of climate and new practices on yield, quality and soil health

#### Public Sector

- Consultancy services to help public actors building climate adaptation plan
- Go-to trigger for government to provide transparent, predefined and fast financial recovery after weather and climate risks have occurred (e.g., tropical cyclones, earthquake, lack of wind, lack of snow, drought)

#### Training

- AXA Climate School is an online learning experience, made of 150+ microlearning chapters, 100% customizable, to engage and upskill employees in sustainable transition

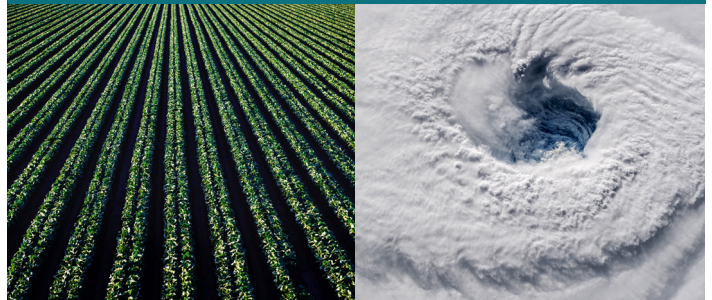

## Why choose us?

Leveraging AXA Group's financial strength and geographical footprint of 105 million clients across 54 countries, including:

- #1 Product innovator on Advisen's Pacesetter Index 2016–2020
- Managing over 5,300 global programs for clients from AXA XL, AXA General Insurance and external insurer partners
- Network of 400 risk consulting experts worldwide
- More than 90% of Fortune 500 companies work with us
- 9,000 colleagues empowered and committed to serving our clients and brokers
- AXA's principal insurance subsidiaries have the following financial strength ratings: A.M. Best A+, S&P AA-, Fitch AA-

Over the next decade, climate will be the catalyst pushing public and private actors to significantly shift their activities in order to make them sustainable.
